BOWYER-SINGLETON ANNOUNCES LEED AP STAFF

Orlando, Fla. (October 2009) – Bowyer-Singleton (BSA) announces that Scott Stearns, P.E., Assistant Director of Civil Engineering, Nicole Stalder, P.E., Project Manager, and Kevin Hebert, P.E., Regional Office Manager (Jacksonville), have achieved Leadership in Energy & Environmental Design Accredited Professional (LEED AP) accreditation in the specialty of Building Design + Construction. LEED accreditation is managed by the Green Building Certification Institute and demonstrates an individual's knowledge and expertise of the LEED Green Building rating system. BSA has designed a number of projects with LEED certified buildings in the municipal, office, educational and mixed use markets.

Bowyer-Singleton & Associates, Inc., established in Orlando in 1972, provides expert services in Civil Engineering, Transportation Engineering, Environmental Sciences and Surveying & Mapping to land developers, transportation agencies, governmental agencies, engineering firms, and building and property owners throughout Florida. The firm is headquartered in Orlando, with regional offices in DeLand, Ocala, Panama City Beach, Jacksonville and Tampa Bay.
